

Environmental Policy

The Board of Directors recognise that Environmental Management is a key business priority and are actively committed to improving the company's environmental performance on an on-going basis.

As a company we will:

- Establish and maintain an appropriate environmental management system which is externally certificated against the requirements of ISO 14001: 2015.
- Comply with all relevant environmental legislation, standards, and codes of practice.
- Monitor and reduce carbon emissions from our operations wherever possible.
- Increase our use of materials from sustainable sources wherever possible.
- Reduce our consumption of finite natural resources by using recycled materials wherever possible with client approval.
- Move the management of waste from disposal towards recovery and recycling wherever possible.
- Select and manage supply chain partners in a way that helps to improve the environmental performance of:
 - The company.
 - Our customers.
 - The supplier, wherever possible.
- Monitor and reduce emissions to air and water from our vehicles, plant and installations.
- Prevent pollution from our operations and facilities and monitor the adverse impacts of our operations (i.e. noise, dust, light pollution) within the environments that we operate within.
- Protect natural heritage and biodiversity within our working areas.
- Ensure that the policy is brought to the attention of all employees and is made available to other interested parties on request and via the company website.
- Raise awareness, encourage participation, and train employees in environmental matters.
- Engage our stakeholders in dialogue wherever possible to identify, introduce and implement innovative solutions and appropriate alternative methods of work to help reduce environmental impact.
- Monitor and review environmental performance as an integral part of our internal audit and inspection regime.

Senior Management will set key objectives and targets based on our policy principles and the significant environmental aspects associated with our operations.

The policy will be reviewed on an annual basis as to ensure that it remains suitable and effective and fulfils the evolving needs of the company.
